SOUTHERN HOUSING – COMPLIANCE TESTING

Niblock have been working with Southern Housing (previously Optivo) for over 10 years on a Term Framework programme to undertake electrical testing, rectification and upgrades to approximately 3,500 – 5000 properties annually including emergency lighting to residential blocks, domestic testing, commercial premises, external estate lighting and reactive repairs.

Our service includes:

- Domestic Electrical testing and upgrades
- Communal, office and sheltered scheme electrical testing and upgrades
- Distribution Board replacement and installations
- LED lighting installation
- Full and partial rewires
- Smoke and heat alarm installations and upgrades to LD3 + heat
- Project works
- On average 3,500 – 5000+ tests carried out a year
